General Application Functions

General Application Functions

1. First Time Sign In

As a newly registered user, the following screens will be shown when the ComplianceHub Application is started, and when you sign in for the first time:

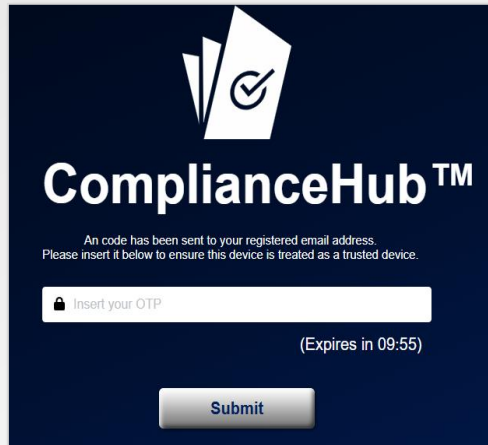

To sign in for the first time:

1. Enter your username included in the registration confirmation email.
2. Enter your password included in the registration confirmation email.
3. Click on **Log In** or press Enter. An OTP email will be sent to you automatically.
4. Enter OTP provided on your email.
5. Click on Submit or press Enter.
6. You will then be redirected to a change password screen for their first time sign in.

Once you have confirmed first time password change, you will have access to the ComplianceHub application and will need to use your updated login details going forward.

The screenshot shows the ComplianceHub login interface. At the top is the ComplianceHub logo, which consists of three overlapping document icons with a checkmark. Below the logo is the text "ComplianceHub™". There are two input fields: "Username" and "Password". The "Password" field has a toggle icon for visibility. Below the "Password" field are two checkboxes: "Remember Me" (checked) and "Forgot Password?". At the bottom is a "Log In" button.

The screenshot shows the ComplianceHub OTP screen. At the top is the ComplianceHub logo. Below the logo is the text "ComplianceHub™". A message states: "An code has been sent to your registered email address. Please insert it below to ensure this device is treated as a trusted device." There is an input field labeled "Insert your OTP". Below the input field is a timer: "(Expires in 09:55)". At the bottom is a "Submit" button.

2. General Sign In

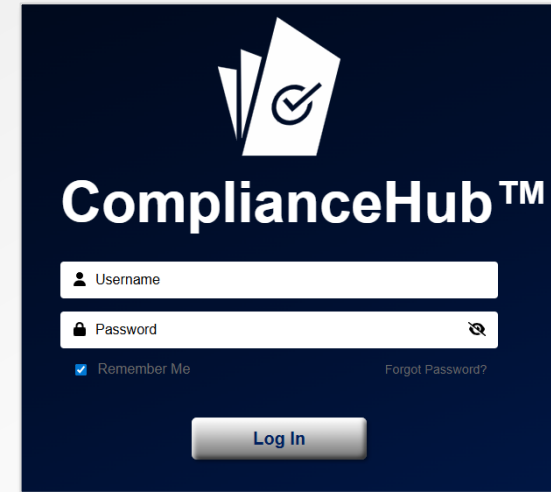

Before the system can be used, you will need to sign in with your ComplianceHub account.

The following screen will always be shown when the ComplianceHub Application is started, or when no user is currently signed in:

To sign in and continue to the system:

- Enter your username.
- Enter your password.
- Click on Sign In or press Enter.

You will have access to the system and its modules. Should you not want to repeat inserting information every time they log in, tick the **Remember Me** option below the password box.

The screenshot shows the ComplianceHub login interface. At the top is the ComplianceHub logo. Below the logo is the text "ComplianceHub™". There are two input fields: "Username" and "Password". The "Password" field has a toggle icon for visibility. Below the "Password" field are two checkboxes: "Remember Me" (checked) and "Forgot Password?". At the bottom is a "Log In" button.

General Application Functions

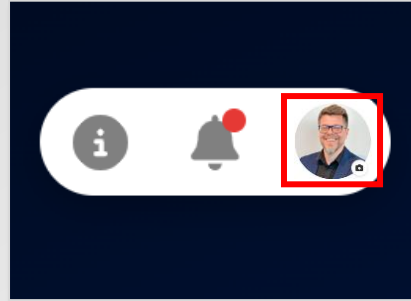

3. Upload Profile Picture

Uploading a profile picture is done by clicking on the user icon on the top right of the application.

Uploading a profile picture:

1. From the home page, click on the profile icon. This will display options as a dropdown.
2. From the dropdown options, select **My Profile**. This will be redirect you to the **My Profile** page.
3. Click on the camera icon. A file upload pop up will appear.
4. Navigate to the file you want to upload, select it, and click "Open".

You profile picture has now been updated and ready for use.

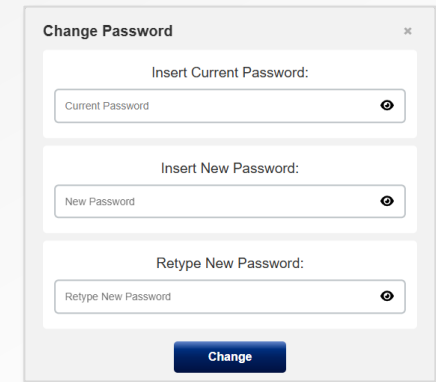

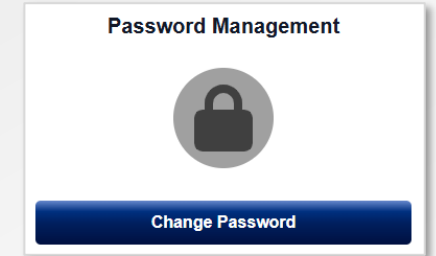

4. Change Password

To change your password, select the user icon on the top right of the application and follow the steps below:

Changing your password:

1. From the home page, click on the profile icon. This will display options as a dropdown.
2. From the dropdown options, select **My Profile**. This will be redirect you to the **My Profile** page.
3. Click the **Change Password** button. This opens the change password popup.
4. Insert your current password.
5. Insert your new password.
6. Re-insert your new password.
7. Select the **Change** button.

This will change your password to the new password you provided.

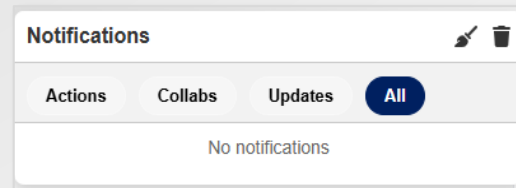

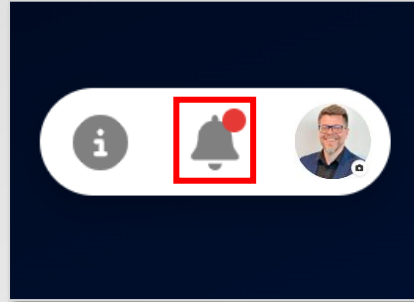

General Application Functions

5. Access Notifications

To access your notifications in the application, follow the steps provided below.

Accessing notifications:

1. From the home page, click on the bell icon. A notifications pop up will appear.
2. Click on the **Actions** button to view all the notifications that require actions.
3. Click on the **Collabs** button to see all the collaboration notifications. These are notifications about items shared with you such as documents drafts.
4. Click on **Updates**, to see any updates on actions that happened in the system.
5. Clicking on the **All button** shows all notifications.

6. Refresh Page

Pages that may have information that get regularly updated may be refreshed within the application to ensure that the information you see is latest and up to date.

Refreshing a page:

- Pages that can be refreshed have the **Refresh** icon on the top right corner. Click on this icon to refresh the contents of that page.
- This will refresh the current page so that any information that may have been added or updated while you are using the application reflects.

General Application Functions

7. Return to Home Page

Returning to the home page can be done from any page, this makes it easier for users to navigate to the home page from any page in the application.

To return to the home page:

1. Click on the **Home** icon at the top right corner of the application screen
2. This will navigate you to the home page.

Alternatively:

1. Click on the ComplianceHub logo on the left blue ribbon of the screen.
2. This will navigate you to the application home page.

Administrator Specific Functions

Administrator Specific Functions

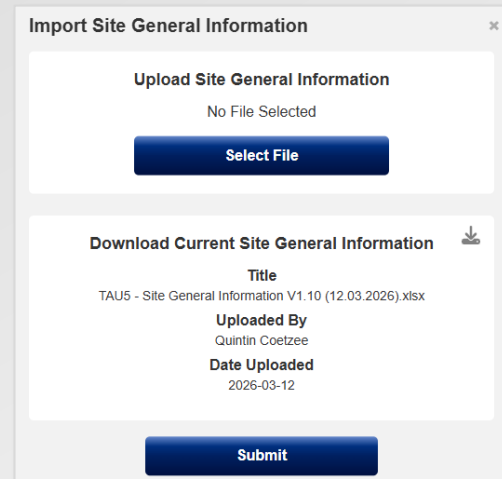

1. Import Site General Information (SGI)

The Site General Information document helps you import organisational information into the application.

To import the Site General Information document, follow the steps below:

- From the home page, click on the **Admin Page** button.
- Select the **Manage Site General Information** tile.
- Select the **Import Site General Information** tile, the popup displayed in the picture on the right will appear:
- Click **Select File** to select the SGI for upload.
- Once the file has been uploaded, the name of the file will appear below the **Upload Site General Information** text.
- Click Submit to complete the upload.

This updates organization information to match the information in the Site General Information document.

The screenshot shows a modal window titled "Import Site General Information". It contains two main sections. The top section is for uploading a file, with the text "Upload Site General Information" and "No File Selected" below it, and a blue "Select File" button. The bottom section is for downloading the current information, with the text "Download Current Site General Information" and a download icon. Below this, it shows the file details: "Title: TAU5 - Site General Information V1.10 (12.03.2026).xlsx", "Uploaded By: Quintin Coetzee", and "Date Uploaded: 2026-03-12". At the bottom of the modal is a blue "Submit" button.

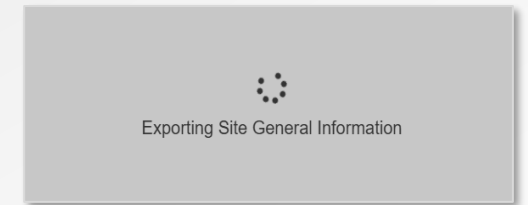

2. Export SGI

To export SGI, follow the steps below from the home page:

Steps for exporting SGI:

- On the home page, click on the **Admin Page** button.
- Select the **Manage Site General Information** tile.
- Select the **Export Site General Information** tile, this will open a pop up displayed on the right.

The latest Site General Information document that exists in the application will be downloaded and ready for viewing in your downloads folder.

Administrator Specific Functions

3. View SGI Backups

To View Site General Information Backups, follow the steps below from the home screen.

Steps for viewing SGI backups:

- Select the **Admin Page** button.
- Select the **Manage Site General Information** tile.
- Select the **View Site General Information Backups** tile, this will open a table displaying all the backups of the SGI which are downloadable:

SGI Backups				
Nr	File Name	Date Created	Expiry Date	Action
1	Site General Information (03.05.2026)	2026-05-04	2026-06-29	
2	Site General Information (05.04.2026)	2026-04-06	2026-06-01	
3	Site General Information (10.05.2026)	2026-05-11	2026-07-06	
4	Site General Information (12.04.2026)	2026-04-13	2026-06-08	
5	Site General Information (17.05.2026)	2026-05-18	2026-07-13	
6	Site General Information (19.04.2026)	2026-04-20	2026-06-15	
7	Site General Information (24.05.2026)	2026-05-25	2026-07-20	
8	Site General Information (26.04.2026)	2026-04-27	2026-06-22	
9	Site General Information (29.03.2026)	2026-03-30	2026-05-25	

4. View SGI Version History

To access SGI version history, follow the steps below from the home screen.

Steps for viewing SGI version history:

- Select the **Admin Page** button.
- Select the **Manage Site General Information** tile.
- Select the **View Site General Information Version History** tile, this will open a table displaying the version history of the SGI which are downloadable:

SGI Version History					
Nr	File Name	Version	Date Uploaded	Reason For Change	Action
1	TAUS - Site General Information V1.10 (12.03.2026)	V 1.10	2026-03-12		
2	TAUS - Site General Information V1.12 (30.03.2026)	V 1.11	2026-03-30	Test. We also need to remove the logos in this document in the next upload. It is not necessary.	

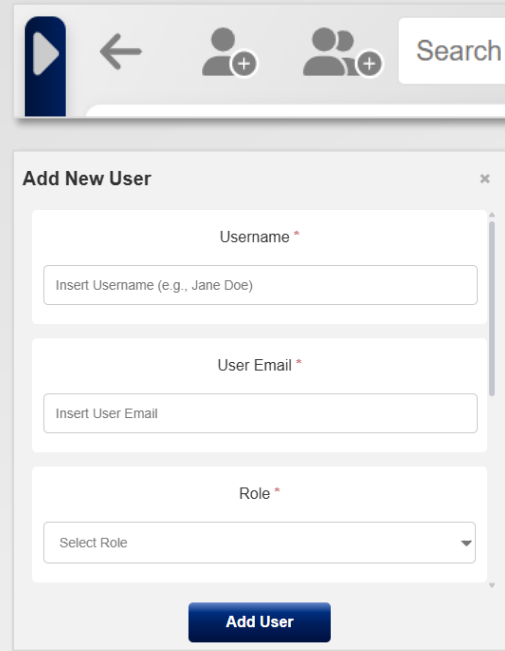

Administrator Specific Functions

5. Add Users

To add application user, follow the steps below from the home page.

Steps for adding new user:

1. Click on the **Admin Page** button.
2. Navigate and click on the **Manage Users** tile.
3. Click on the single person with a plus icon on the top left of the screen. The following popup on displayed in the image on the r will appear:
4. Populate the new user information and click submit.

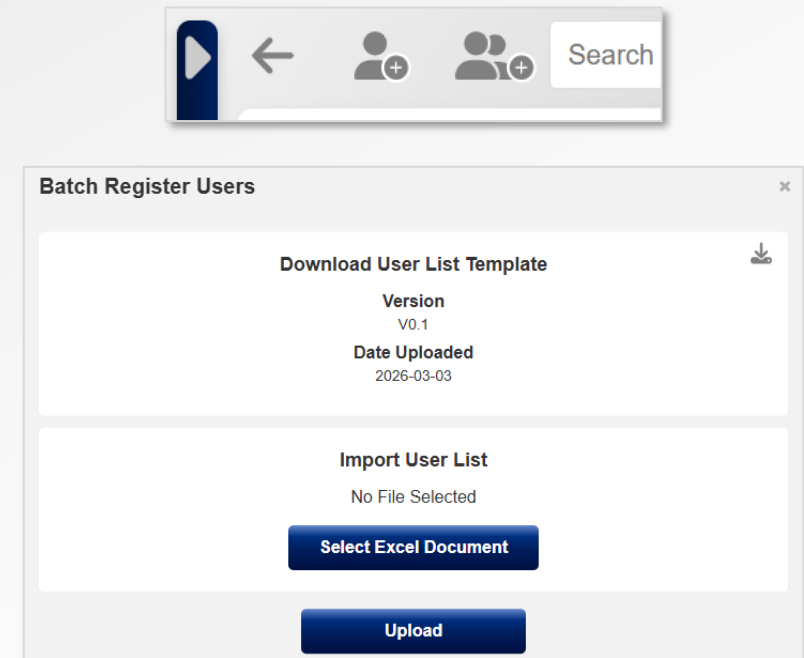

The screenshot shows a top navigation bar with a play button, a back arrow, two user icons with plus signs, and a search box. Below it, a modal titled 'Add New User' is open. It contains three input fields: 'Username' with a red asterisk and placeholder 'Insert Username (e.g., Jane Doe)', 'User Email' with a red asterisk and placeholder 'Insert User Email', and 'Role' with a red asterisk and a dropdown menu showing 'Select Role'. A blue 'Add User' button is at the bottom right of the modal.

6. Add Multiple Users

To add application multiple users at once, follow the steps below from the home page.

Steps for adding multiple users:

- Select the **Admin Page** button.
- Select the **Manage Users** tile.
- Click the people (Two people) with a plus icon on the top left of the screen. The following popup will appear:
- Populate the popup information and click submit.

The screenshot shows the same top navigation bar as in section 5. Below it, a modal titled 'Batch Register Users' is open. It has two main sections. The first section, 'Download User List Template', shows 'Version V0.1' and 'Date Uploaded 2026-03-03' with a download icon. The second section, 'Import User List', shows 'No File Selected' and a blue 'Select Excel Document' button. At the bottom of the modal is a blue 'Upload' button.

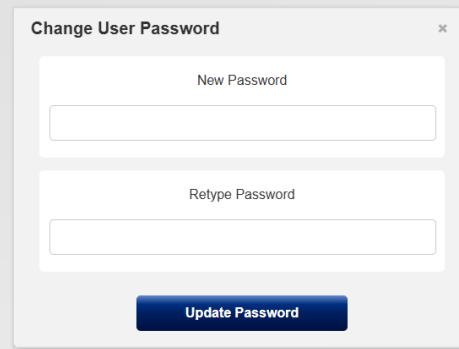

Administrator Specific Functions

9. Modify User Credentials

To modify a specific user credentials, follow the steps below from the home page.

Steps for modifying user credentials:

- Select the **Admin Page** button.
- Select the **Manage Users** tile.
- Locate the required account username in the Manage Users table.
- On the **Action** column, click the **Key** Button corresponding with the username. The following popup will open:
- Insert the new password in the **New Password** textbox.
- Retype password to confirm the new password.
- Click **Update Password**.

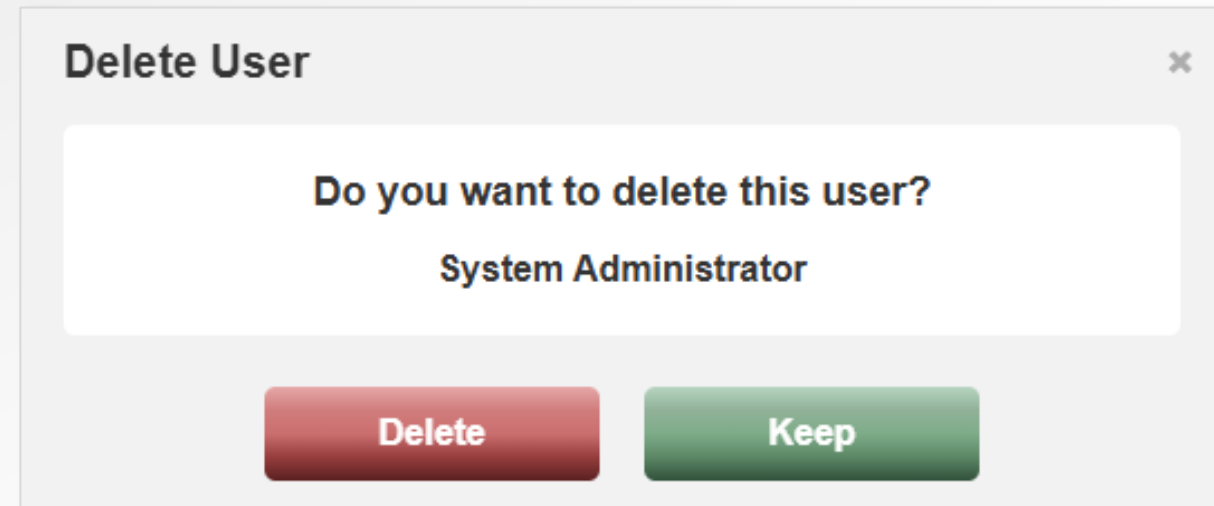

A dialog box titled "Change User Password" with a close button (X) in the top right corner. It contains two text input fields: the first is labeled "New Password" and the second is labeled "Retype Password". Below the fields is a blue button labeled "Update Password".

10. Delete Users

To delete application user, follow the steps below from the home page.

Steps for deleting a user:

- Select the **Admin Page** button.
- Select the **Manage Users** tile.
- Locate the required account username in the Manage Users table.
- On the **Action** column, click the **Trash** Button corresponding with the username.
- The following confirmation pop up will appear, select **Delete**.

A dialog box titled "Delete User" with a close button (X) in the top right corner. It contains a white text box with the text "Do you want to delete this user?" and "System Administrator" below it. At the bottom, there are two buttons: a red button labeled "Delete" and a green button labeled "Keep".

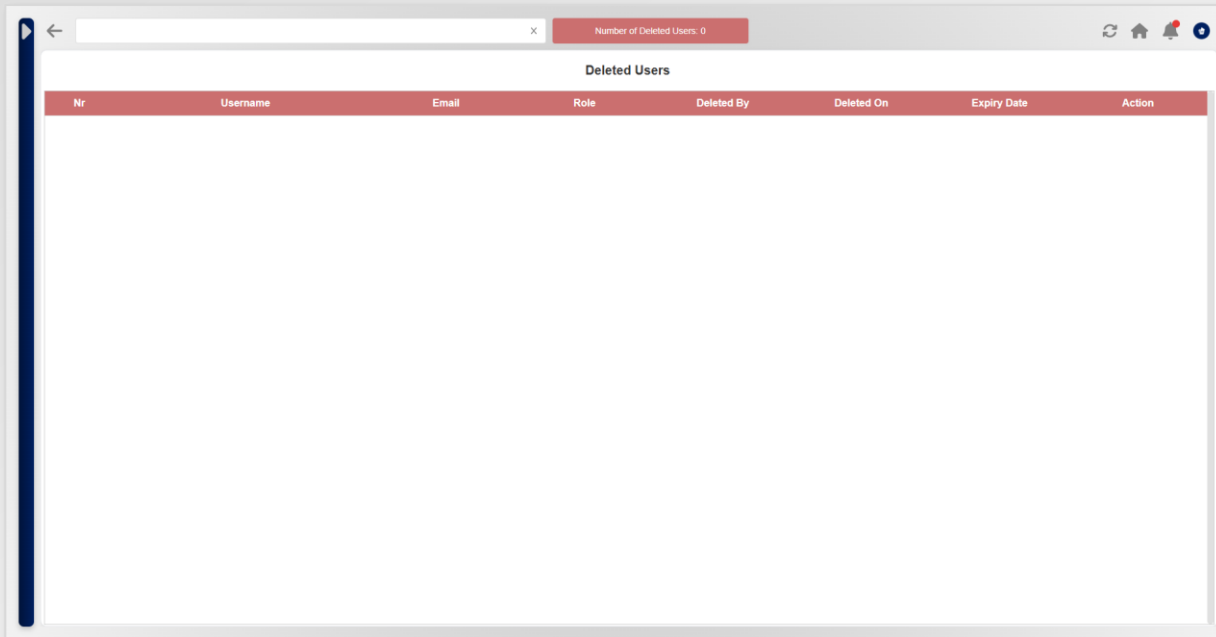

Administrator Specific Functions

11. View Deleted Users

To access Deleted Users, follow the steps below from the home screen.

Steps for accessing deleted users:

1. Select the **Admin Page** button.
2. Select the **Manage Users** tile.
3. On the left panel, click the **Deleted Users** Button.
4. This will open the following table. Deleted accounts can be restored or completely removed from the system.

The screenshot shows a web application window with a title bar containing a back arrow, a search bar, and a tab labeled 'Number of Deleted Users: 0'. The main content area is titled 'Deleted Users' and contains a table with the following columns: Nr, Username, Email, Role, Deleted By, Deleted On, Expiry Date, and Action. The table is currently empty.

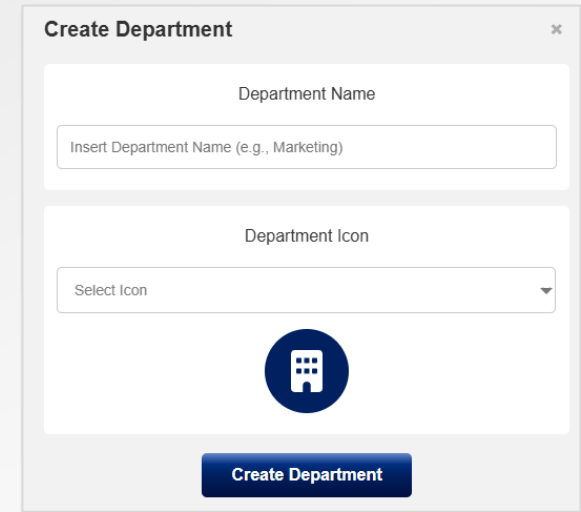

Nr	Username	Email	Role	Deleted By	Deleted On	Expiry Date	Action
----	----------	-------	------	------------	------------	-------------	--------

12. Create Department

To create a new department, follow the steps below from the home screen.

Steps for creating a department:

1. Select the **Admin Page** button.
2. Select the **Manage Departments** tile.
3. On the top left corner of the screen, click the **plus** icon to open the following popup:
4. Insert the new department name and select the appropriate icon.
5. Click the **Create Department** button once done.

The screenshot shows a 'Create Department' popup form. It has a title bar with a close button. The form contains two input fields: 'Department Name' with a placeholder 'Insert Department Name (e.g., Marketing)' and 'Department Icon' with a dropdown menu labeled 'Select Icon'. Below the input fields is a large blue circular icon with a white building symbol. At the bottom of the form is a blue button labeled 'Create Department'.

Administrator Specific Functions

13. Update Department

To update an existing department, follow the steps below from the home screen.

Steps for updating a department:

1. Select the **Admin Page** button.
2. Select the **Manage Departments** tile.
3. Locate the department you want to update in the Departments table and click the **Edit/Update** icon (Notepad icon) on the action column. The following popup will appear:
4. Make the necessary changes and click **Update Department**.

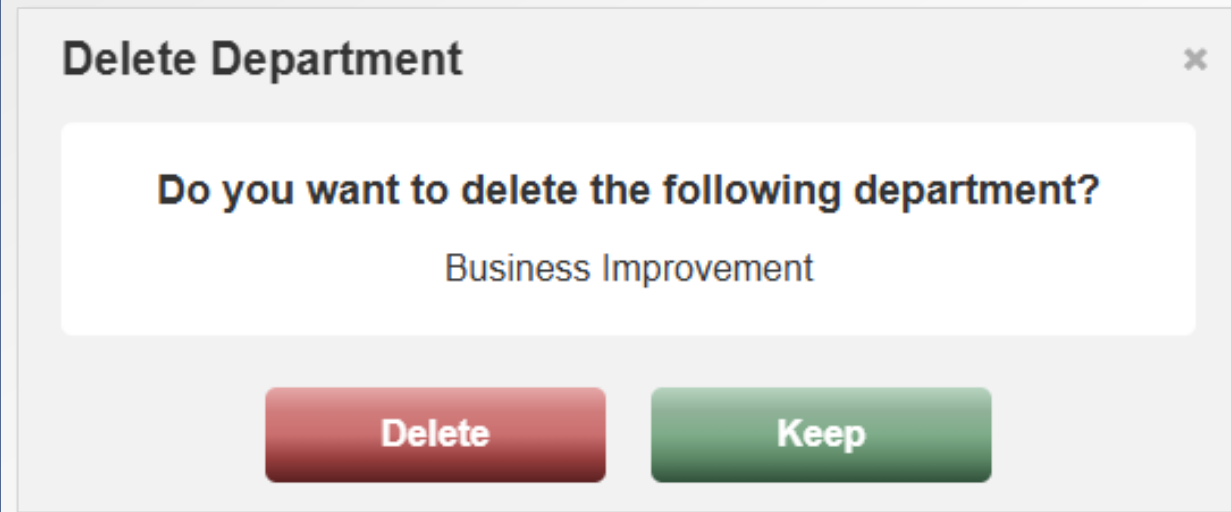

The 'Update Department' popup form contains two input fields. The first is labeled 'Department Name' and has 'Business Improvement' entered. The second is labeled 'Department Icon' and has a dropdown menu showing 'Briefcase' with a downward arrow. Below these fields is a blue circular icon containing a white briefcase symbol. At the bottom of the form is a blue button labeled 'Update Department'.

14. Delete Department

To delete an existing department, follow the steps below from the home screen.

Steps for deleting a department:

- Select the **Admin Page** button.
- Select the **Manage Departments** tile.
- Locate the department you want to delete in the Departments table and click the **Delete** icon (Trash icon).
- The following popup will appear:
- Click **Delete** to confirm deletion.

The 'Delete Department' confirmation popup has a title bar with a close button. The main content area contains the question 'Do you want to delete the following department?' followed by the department name 'Business Improvement'. At the bottom, there are two buttons: a red 'Delete' button and a green 'Keep' button.

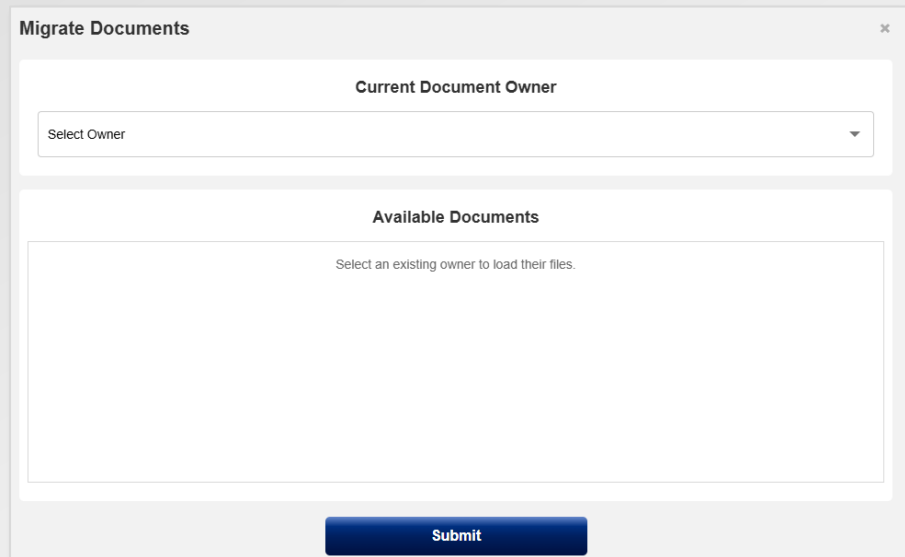

Administrator Specific Functions

15. Migrate Documents - DMS

To migrate documents from a user to other users in the DMS, follow the steps from the home page.

Steps for migrating a document:

1. Select the **Admin Page** button.
2. Select the **Migrate Documents** tile.
3. Select **DMS Migration** tile. The following popup will appear:
4. Select the current owner of the documents.
5. On the Available Documents table, select the new owner for each document that must be migrated.
6. Click **Submit** when done.

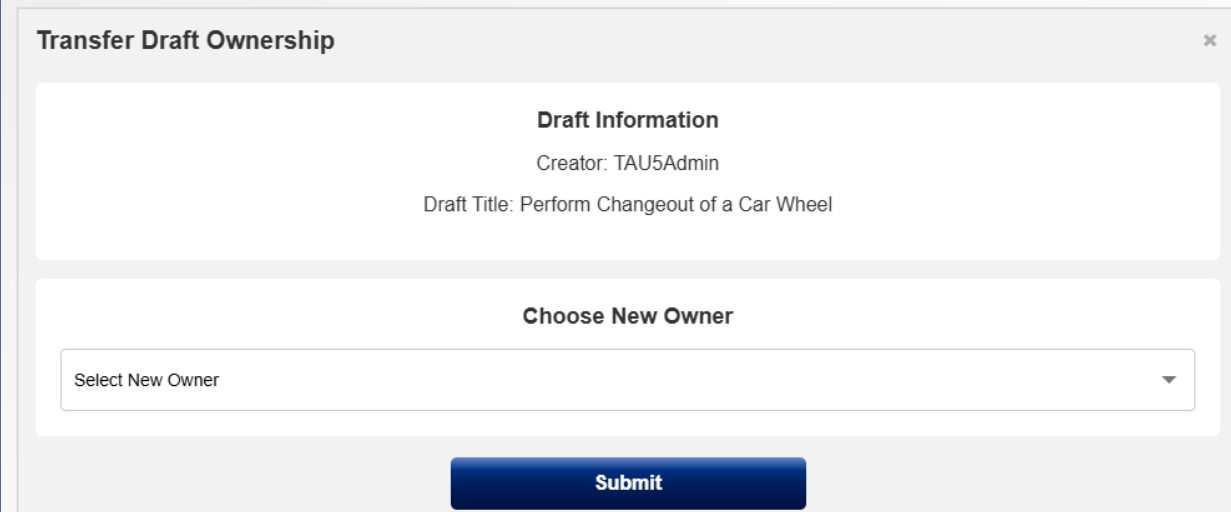

The 'Migrate Documents' popup window has a title bar with a close button. It contains two main sections. The first section, 'Current Document Owner', features a dropdown menu with the text 'Select Owner'. The second section, 'Available Documents', contains a large empty box with the instruction 'Select an existing owner to load their files.' at the bottom. A blue 'Submit' button is located at the bottom center of the popup.

16. Migrate Drafts - DDS

To migrate drafts from one user to another user in the DDS, follow the steps from the home page.

Steps for migrating a draft:

- Select the **Admin Page** button.
- Select the **Migrate Documents** tile.
- Select **DDS Draft Migration** tile, this shows a table with all drafts and their owners.
- Select the draft that needs to be transferred and click on the edit icon in the action column the following popup will appear:
- Populate the popup and click on the **Submit** button.

The 'Transfer Draft Ownership' popup window has a title bar with a close button. It is divided into three sections. The top section, 'Draft Information', shows 'Creator: TAU5Admin' and 'Draft Title: Perform Changeout of a Car Wheel'. The middle section, 'Choose New Owner', features a dropdown menu with the text 'Select New Owner'. A blue 'Submit' button is located at the bottom center of the popup.

Administrator Specific Functions

17. Migrate Drafts - RMS

To migrate drafts from one user to another user in the RMS, follow the steps from the home page.

Steps for migrating a draft:

1. Select the **Admin Page** button.
2. Select the **Migrate Documents** tile.
3. Select **RMS Draft Migration** tile, this shows a table with all drafts and their owners.
4. Select the draft that needs to be transferred and click on the edit icon in the action column the following popup will appear:
5. Populate the popup and click on the **Submit** button.

3. Access Saved Drafts (All Modules)

To access saved drafts on the DDS, navigate to the DDS on the home page and follow the steps below:

Steps for accessing saved drafts:

- Select the required **Document Type** tile.
- Select the **Saved Drafts** tile.
- This will load a new table that shows all the saved drafts for the specific document type.

The screenshot shows a web application interface with a search bar at the top. Below the search bar, there is a table titled "Saved Drafts". The table has columns: Nr, Draft Title, Created By, Creation Date, Last Modified By, Last Modification Date, and Action. There is one row of data.

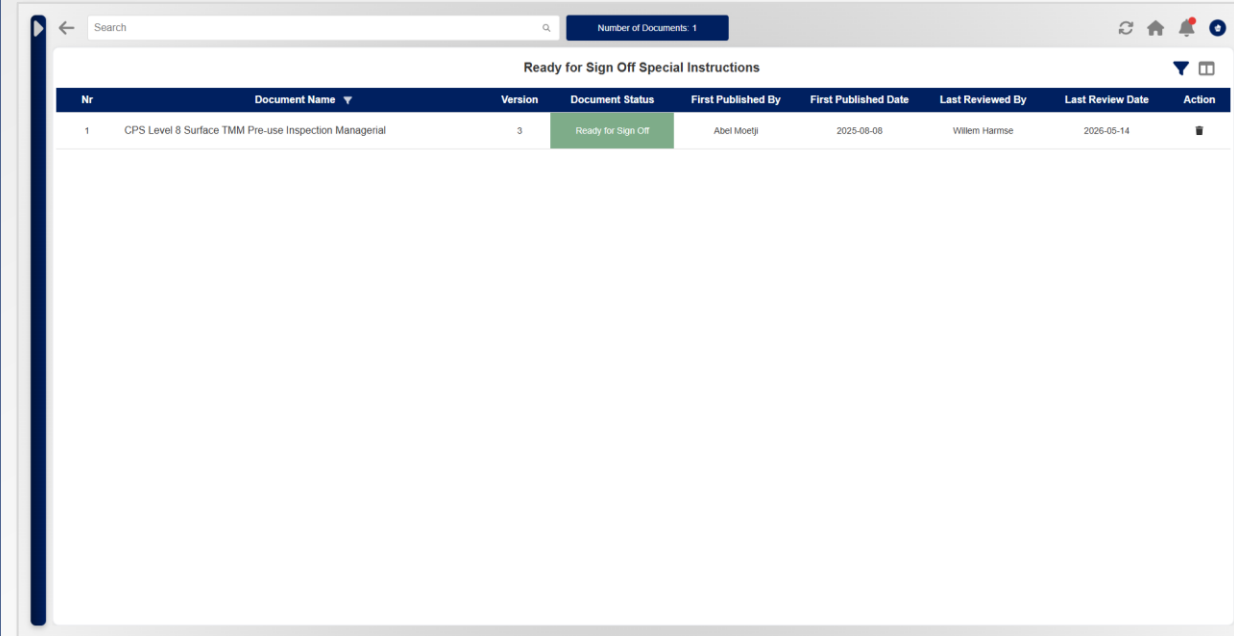

Nr	Draft Title	Created By	Creation Date	Last Modified By	Last Modification Date	Action
1	Site Operations & Safety	Willem Harmse	2025-03-19 10:07 AM	Willem Harmse	2025-04-14 12:06 PM	

4. Access Ready for Sign Off (All Modules)

To access ready for sign off documents on the DDS, navigate to the DDS on the home page and follow the steps below:

Steps for accessing ready for sign off documents:

- Select the required **Document Type** tile.
- Select the **Ready for Sign Off** tile.
- This will load a new table that shows all the ready for sign off documents for the specific document type.

The screenshot shows a web application interface with a search bar at the top. Below the search bar, there is a table titled "Ready for Sign Off Special Instructions". The table has columns: Nr, Document Name, Version, Document Status, First Published By, First Published Date, Last Reviewed By, Last Review Date, and Action. There is one row of data.

Nr	Document Name	Version	Document Status	First Published By	First Published Date	Last Reviewed By	Last Review Date	Action
1	CPS Level 6 Surface TMM Pre-use Inspection Managerial	3	Ready for Sign Off	Abel Moetj	2025-08-08	Willem Harmse	2025-05-14

7. Download Controls Sheet

To download an excel sheet with all the controls in the control management on the RMS, navigate to the RMS on the home page and follow the steps below:

Steps for downloading control sheet:

- Select the **Manage Controls** on the **Risk Management Home Page**.
- This will open the table with all the controls currently in the system.
- Select the **Download Icon** on the top right of the table
- This will download an **Excel Sheet** with all the controls.

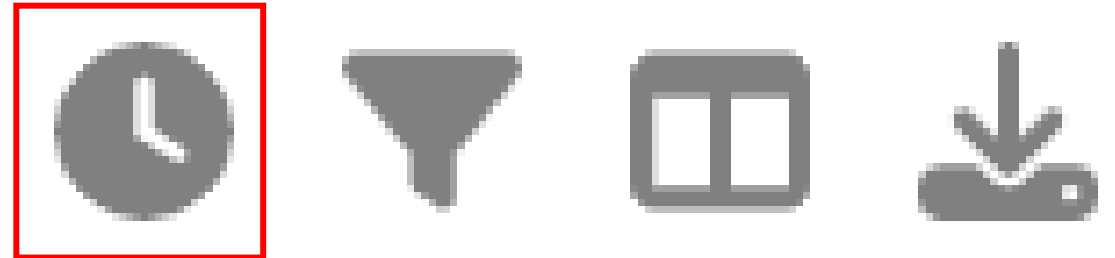

8. Highlight Modified Controls

To view controls updated in the last 30 days on the RMS, navigate to the RMS on the home page and follow the steps below:

Steps for viewing updated controls:

- Select the **Manage Controls** on the **Risk Management Home Page**.
- This will open the table with all the controls currently in the system.
- Select the **Clock Icon** on the top right of the table.
- This will highlight all controls updated in the last 30 days.

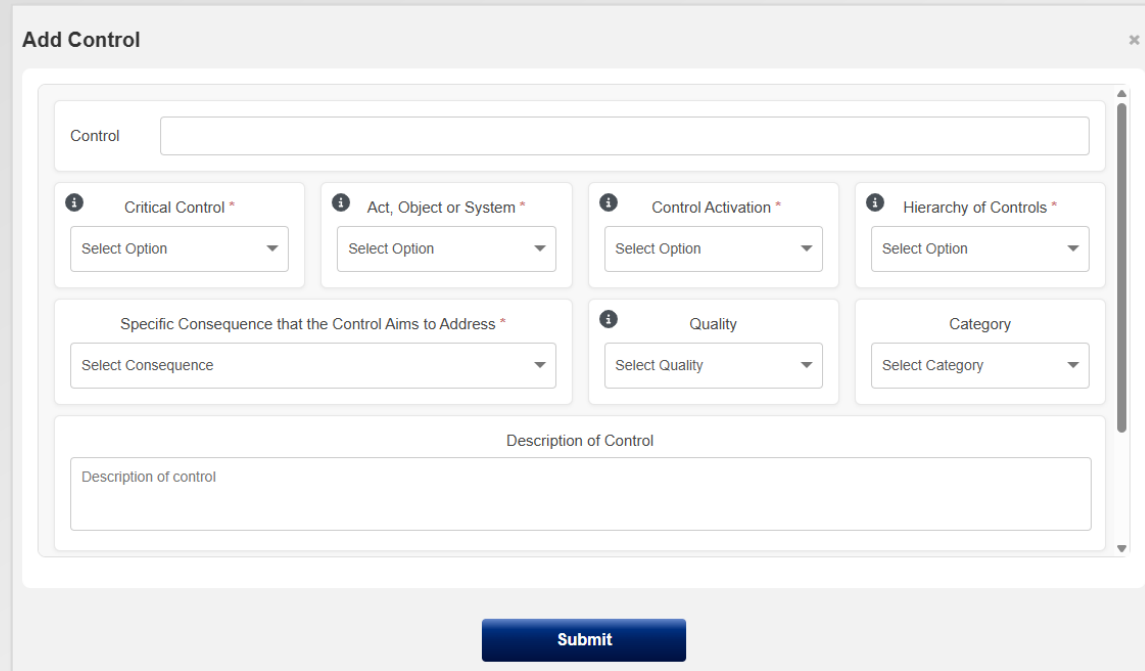

Risk Management System (Control Management)

9. Add New Controls

To add a new control to the control management on the RMS, navigate to the RMS on the home page and follow the steps below:

Steps for adding a control:

- Select the **Manage Controls** on the **Risk Management Home Page**.
- This will open the table with all the controls currently in the system.
- Select the **Plus Icon** on the top left of the screen. This will open the following popup:
- Populate all required information and select **Submit**.

The 'Add Control' popup form contains the following fields:

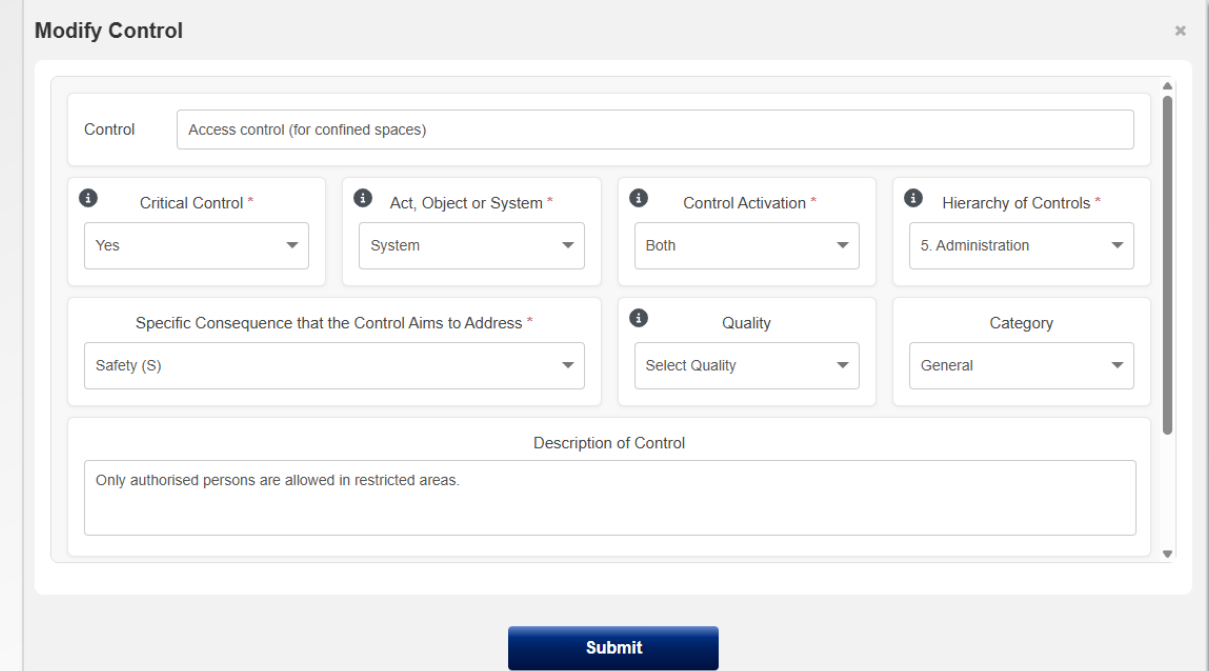

- Control**: A text input field.
- Critical Control ***: A dropdown menu with 'Select Option'.
- Act, Object or System ***: A dropdown menu with 'Select Option'.
- Control Activation ***: A dropdown menu with 'Select Option'.
- Hierarchy of Controls ***: A dropdown menu with 'Select Option'.
- Specific Consequence that the Control Aims to Address ***: A dropdown menu with 'Select Consequence'.
- Quality**: A dropdown menu with 'Select Quality'.
- Category**: A dropdown menu with 'Select Category'.
- Description of Control**: A large text area with the placeholder text 'Description of control'.
- Submit**: A blue button at the bottom right.

10. Update Controls

To update a control on the RMS, navigate to the RMS on the home page and follow the steps below:

Steps for updating a control:

- Select the **Manage Controls** on the **Risk Management Home Page**.
- This will open the table with all the controls currently in the system.
- Locate the required control that must be updated and select the **Edit Icon** in the action column.
- The following popup will open:
- Change the required values and select **Submit**.

The 'Modify Control' popup form contains the following fields:

- Control**: A text input field with the value 'Access control (for confined spaces)'.
- Critical Control ***: A dropdown menu with 'Yes'.
- Act, Object or System ***: A dropdown menu with 'System'.
- Control Activation ***: A dropdown menu with 'Both'.
- Hierarchy of Controls ***: A dropdown menu with '5. Administration'.
- Specific Consequence that the Control Aims to Address ***: A dropdown menu with 'Safety (S)'.
- Quality**: A dropdown menu with 'Select Quality'.
- Category**: A dropdown menu with 'General'.
- Description of Control**: A large text area with the value 'Only authorised persons are allowed in restricted areas.'.
- Submit**: A blue button at the bottom right.

Risk Management System (Control Management)

11. Delete Controls

To delete a control on the RMS, navigate to the RMS on the home page and follow the steps below:

Steps for deleting a control:

- Select the **Manage Controls** on the **Risk Management Home Page**.
- This will open the table with all the controls currently in the system.
- Locate the required control that must be deleted and select the **Trash Icon** in the action column.
- The following confirmation popup will open, select **Delete**.

Delete Control

Are you sure you want to delete this control from the system and Site General Document?

2. Develop Visitor Inductions

To develop a visitor induction on the TMS, navigate to the TMS on the home page and follow the steps below:

Steps for developing a visitor induction:

- Select the **Visitor Induction** tile.
- Select the **Develop Visitor Induction** tile.
- This will load a page that allows for the population of required information.

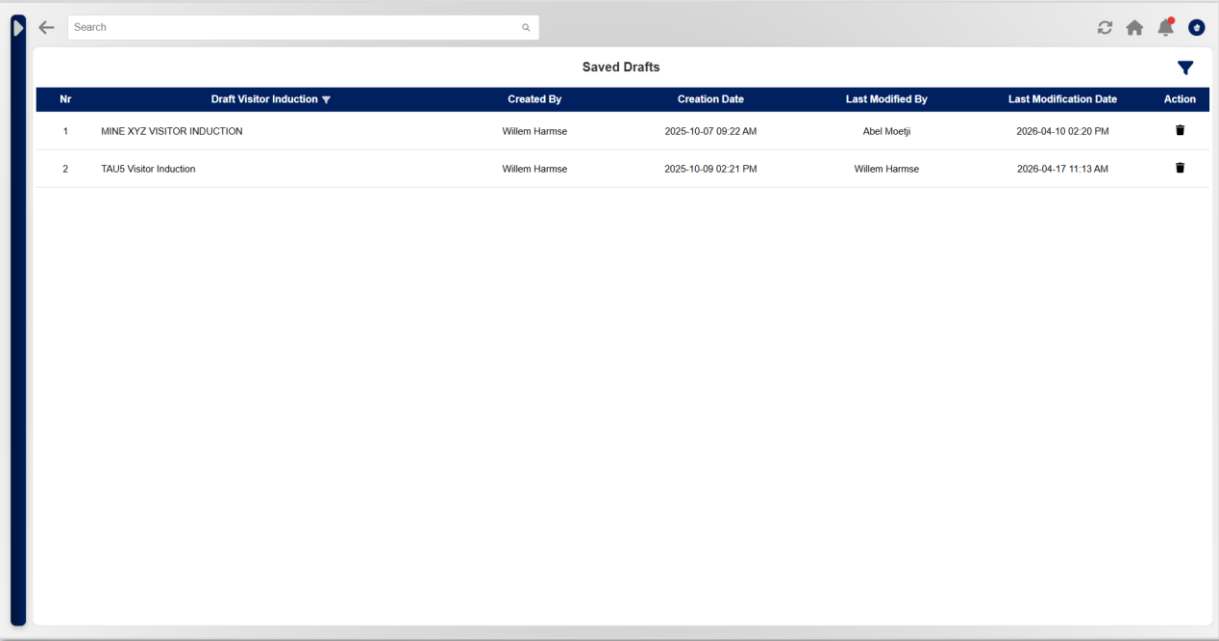

Training Management System (Visitor Induction)

3. Access Saved Drafts

To access saved drafts on the TMS, navigate to the TMS on the home page and follow the steps below:

Steps for accessing saved drafts:

- Select the **Visitor Induction** tile.
- Select the **Saved Drafts** tile.
- This will load a new table that shows all the saved drafts for the visitor inductions.

The screenshot shows a web application interface with a search bar at the top. Below the search bar is a table titled "Saved Drafts". The table has six columns: "Nr", "Draft Visitor Induction", "Created By", "Creation Date", "Last Modified By", and "Last Modification Date". There is also an "Action" column with a trash icon. The table contains two rows of data.

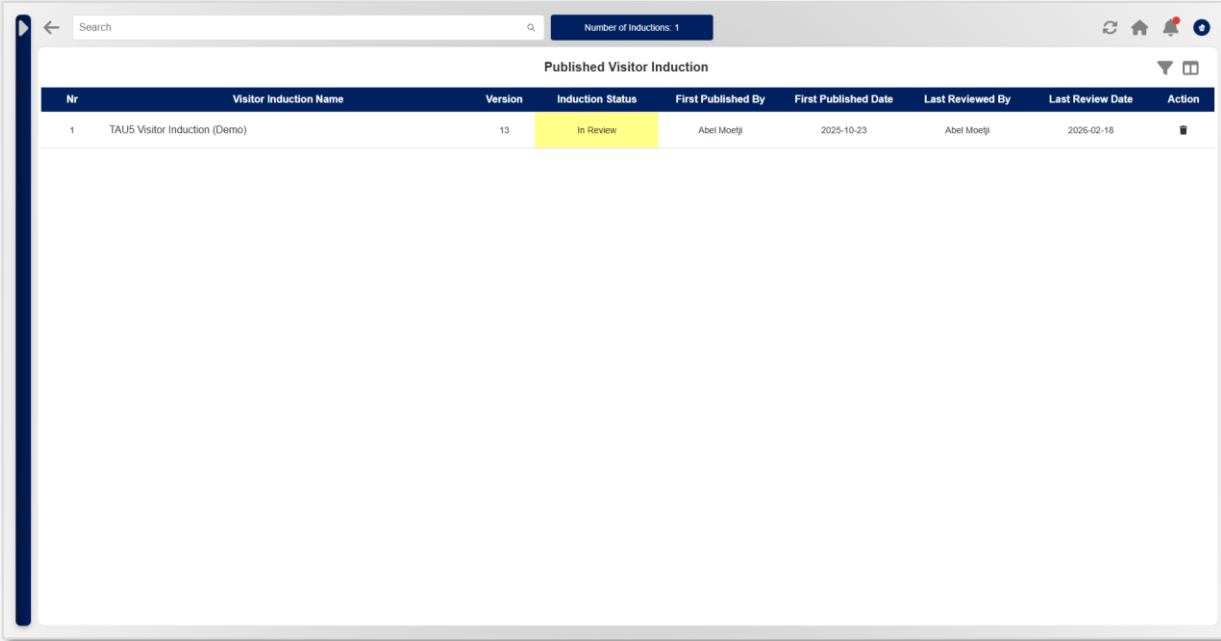

Nr	Draft Visitor Induction	Created By	Creation Date	Last Modified By	Last Modification Date	Action
1	MINE XYZ VISITOR INDUCTION	Willem Harmse	2025-10-07 09:22 AM	Abel Moelji	2026-04-10 02:20 PM	
2	TAU5 Visitor Induction	Willem Harmse	2025-10-09 02:21 PM	Willem Harmse	2026-04-17 11:13 AM	

4. Access Published Visitor Induction

To access published visitor inductions on the TMS, navigate to the TMS on the home page and follow the steps below:

Steps for accessing published visitor inductions:

- Select the **Visitor Induction** tile.
- Select the **Published Visitor Inductions** tile.
- This will load a new table that shows all the published visitor inductions in the system.

The screenshot shows a web application interface with a search bar at the top. To the right of the search bar is a button that says "Number of Inductions: 1". Below the search bar is a table titled "Published Visitor Induction". The table has seven columns: "Nr", "Visitor Induction Name", "Version", "Induction Status", "First Published By", "First Published Date", "Last Reviewed By", "Last Review Date", and "Action". The table contains one row of data.

Nr	Visitor Induction Name	Version	Induction Status	First Published By	First Published Date	Last Reviewed By	Last Review Date	Action

9. Upload Multiple Certificates

To upload multiple certificates on the flameproof management, navigate to the EPAMS on the home page and follow the steps below:

Steps for uploading multiple certificates:

- Select the **Flameproof Management** tile.
- Open the sidebar and select **Manage FMM**.
- Select the **Upload Batch Certificates** tile.
- The following popup will appear, populate and attach the **Site Certificate List**, and attach all certificates.
- Select **Submit**.

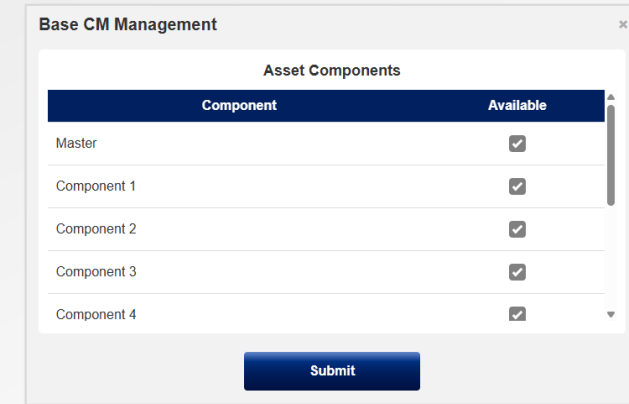

The dialog box titled "Upload Batch Certificates" contains two main sections. The top section, "Upload Site Certificate List", shows "No File Selected" and a "Select Excel Document" button. The bottom section, "Upload Certificates from the List", features a "Select Certificates" button and a table with columns "Nr", "Certificate", and "Action". A "Submit" button is located at the bottom of the dialog.

10. Manage Asset Types

To manage asset types on the flameproof management, navigate to the EPAMS on the home page and follow the steps below:

Steps for managing asset types:

- Navigate to the **Manage FMM** and select the **Manage Assets** Tile.
- Select the relevant **Asset Type** tile.
- Locate the asset that must be modified and select the **Edit Icon** in the action column to open the popup.
- Select all required components and select **Submit**.

The dialog box titled "Base CM Management" displays a table of "Asset Components". The table has two columns: "Component" and "Available". All components are checked as available. A "Submit" button is at the bottom.

19. Upload Single Certificate

To upload a single certificate on the flameproof management, navigate to the EPAMS on the home page and follow the steps below:

Steps for registering a single asset:

- Select the **Flameproof Management** tile.
- Select the **Table Icon** on the top left side of the screen. This opens the following popup.
- Populate all required information.
- Select **Register Asset**.

The 'Upload Certificate' popup form contains the following elements:

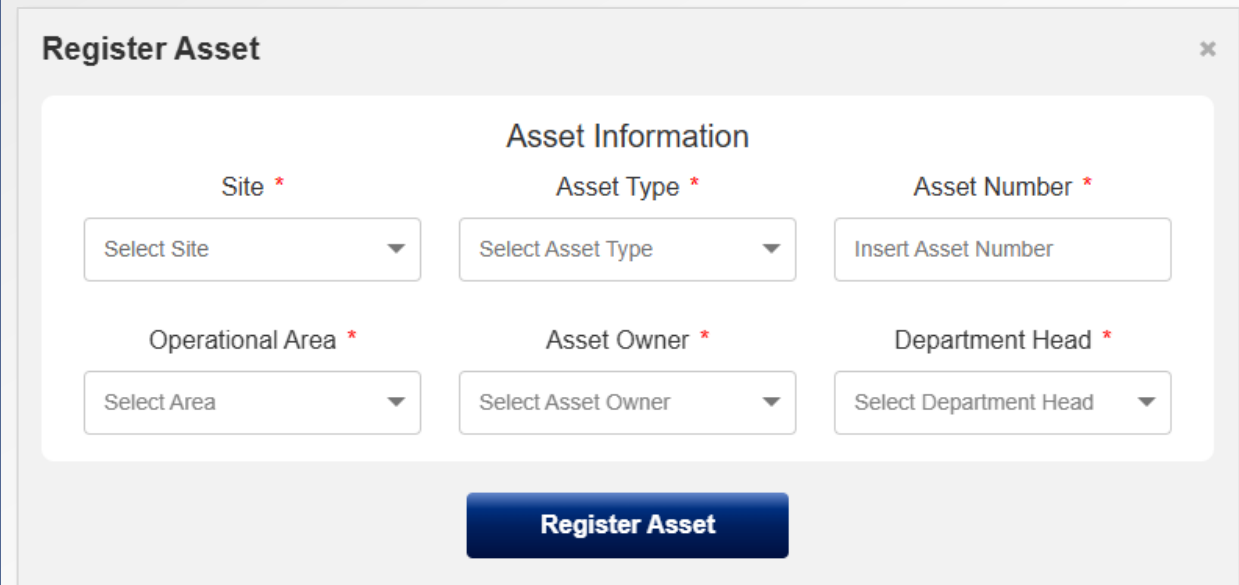

- A header section with the text 'No Certificate Selected' and a blue 'Choose Certificate' button.
- A 'Certificate Information' section with the following fields:
 - Site ***: A dropdown menu with 'Select Site' as the placeholder.
 - Asset Number ***: A dropdown menu with 'Select Asset Number' as the placeholder.
 - Component/ Type ***: A dropdown menu with 'Select Component' as the placeholder.
 - Certification Body ***: A dropdown menu with 'Select Certification Body' as the placeholder.
 - Certificate Number ***: A text input field with the placeholder 'Insert Certificate Number'.
 - Issue Date ***: A date picker field with the placeholder 'YYYY-MM-DD'.
 - Expiry Date**: A date picker field with the placeholder 'N/A'.
- A blue 'Upload Certificate' button at the bottom.

20. Register Single Asset

To register a single asset on the flameproof management, navigate to the EPAMS on the home page and follow the steps below:

Steps for uploading a single certificate:

- Select the **Flameproof Management** tile.
- Select the **Document Icon with a plus** on the top left side of the screen. This opens the following popup.
- Populate all required information.
- Select **Upload Certificate**.

The 'Register Asset' popup form contains the following elements:

- A header section with the title 'Register Asset' and a close button (X).
- An 'Asset Information' section with the following fields:
 - Site ***: A dropdown menu with 'Select Site' as the placeholder.
 - Asset Type ***: A dropdown menu with 'Select Asset Type' as the placeholder.
 - Asset Number ***: A text input field with the placeholder 'Insert Asset Number'.
 - Operational Area ***: A dropdown menu with 'Select Area' as the placeholder.
 - Asset Owner ***: A dropdown menu with 'Select Asset Owner' as the placeholder.
 - Department Head ***: A dropdown menu with 'Select Department Head' as the placeholder.
- A blue 'Register Asset' button at the bottom.

25. Access Digital Warehouse

To access the digital warehouse on the flameproof management, navigate to the EPAMS on the home page and follow the steps below:

Steps for accessing the digital warehouse:

- Select the **Flameproof Management** tile.
- Select the **relevant site** for the digital warehouse.
- Select the **Digital Warehouse** tile.
- This shows the table below.

The screenshot shows a web application interface for the Digital Warehouse. At the top, there is a search bar labeled 'Search Components' and two status indicators: 'Valid Components: 0' and 'Invalid Components: 0'. Below this is a table titled 'Digital Warehouse'. The table has a dark blue header with the following columns: 'Nr', 'Site', 'Asset Type', 'Component Name', 'Component Serial Number', 'Certification Body', 'Certification Status', 'Invalidity Reason', and 'Action'. The table body is empty, and a message 'No Components in Digital Warehouse' is displayed below the header.

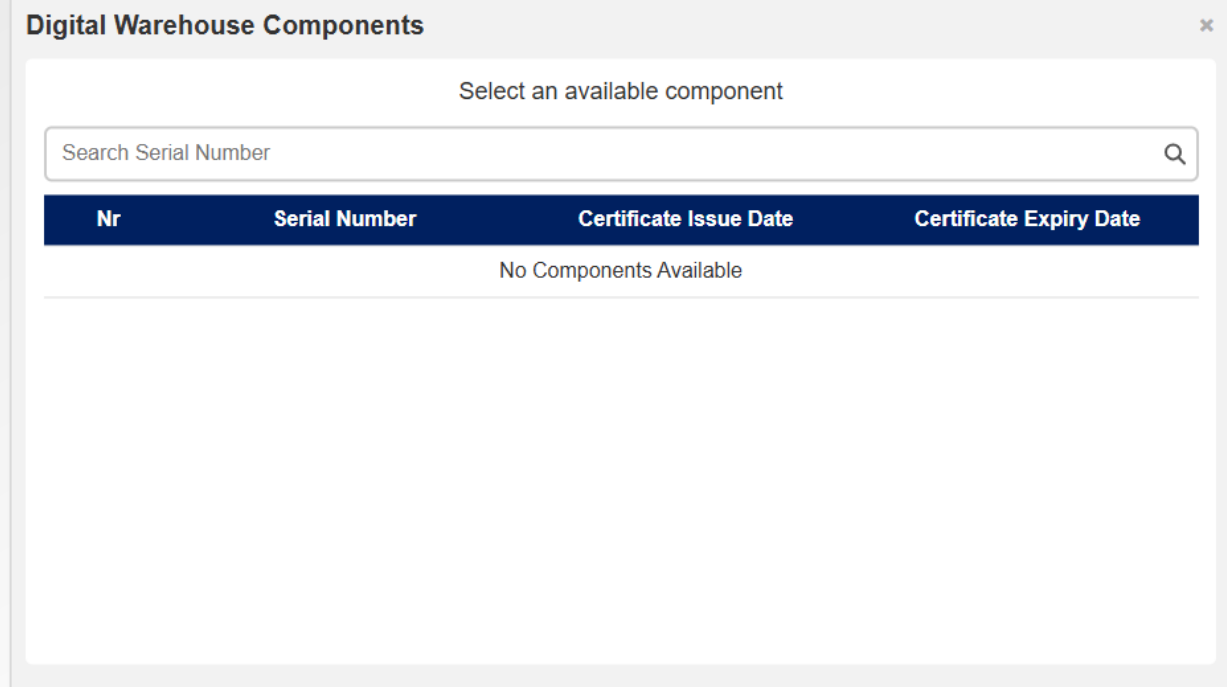

Nr	Site	Asset Type	Component Name	Component Serial Number	Certification Body	Certification Status	Invalidity Reason	Action
No Components in Digital Warehouse								

26. Fetch Certificate from Digital Warehouse

To fetch a certificate from the digital warehouse on the flameproof management, navigate to the EPAMS on the home page and follow the steps below:

Steps for fetching a certificate:

- Navigate to the **required site, asset type and asset** in the system.
- Locate the **required certificate** and select the row of the certificate. This shows a dropdown list of options, select **Fetch from Digital Warehouse**.
- The popup will be displayed. Select the **relevant certificate** that must be used.

The screenshot shows a popup window titled 'Digital Warehouse Components'. At the top, there is a search bar labeled 'Search Serial Number' and a close button. Below this is a table with the following columns: 'Nr', 'Serial Number', 'Certificate Issue Date', and 'Certificate Expiry Date'. The table body is empty, and a message 'No Components Available' is displayed below the header.

Nr	Serial Number	Certificate Issue Date	Certificate Expiry Date
No Components Available			

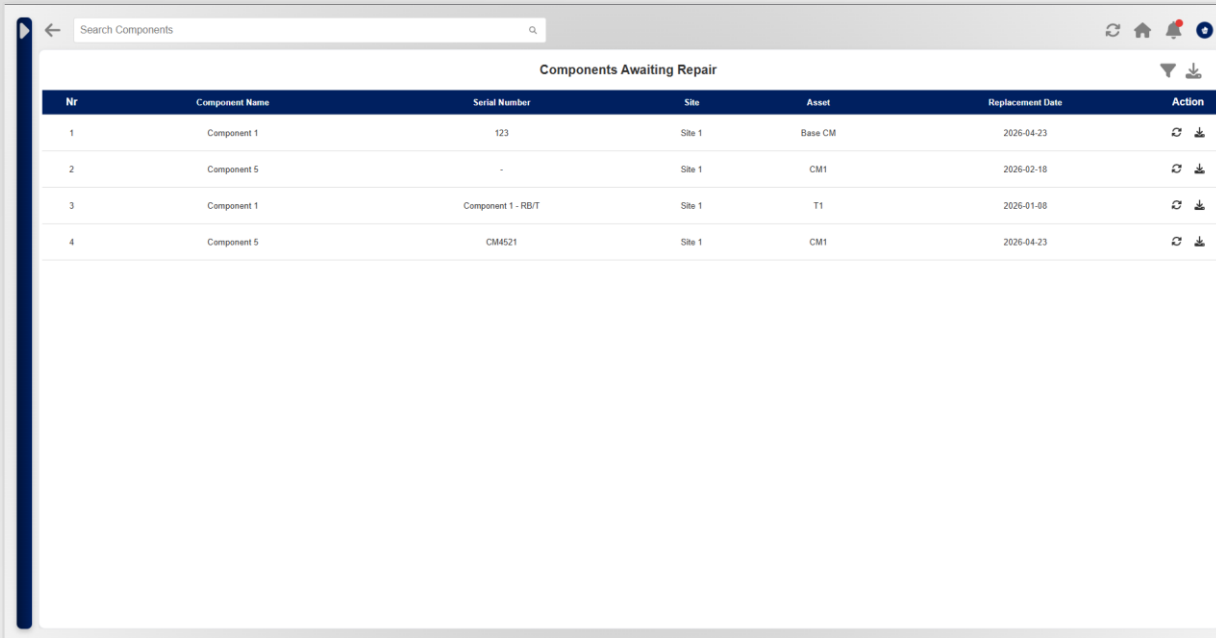

EPA Management System (Administrator)

27. Access Components Awaiting Repair

To access components awaiting repair on the flameproof management, navigate to the EPAMS on the home page and follow the steps below:

Steps for accessing the components awaiting repair:

- Navigate to the **Digital Warehouse**.
- Select the **Tool Icon** on the top right of the table.
- This opens a new table that displays all components that are currently awaiting repair.

The screenshot displays a web application interface for the EPA Management System. At the top, there is a search bar labeled 'Search Components' and a navigation bar with icons for refresh, home, notifications, and a user profile. Below the navigation bar, the title 'Components Awaiting Repair' is centered. The main content area features a table with the following columns: Nr, Component Name, Serial Number, Site, Asset, Replacement Date, and Action. The table contains four rows of data. The 'Action' column for each row contains two icons: a circular arrow and a download icon.

Nr	Component Name	Serial Number	Site	Asset	Replacement Date	Action
1	Component 1	123	Site 1	Base CM	2026-04-23	 
2	Component 5	-	Site 1	CM1	2026-02-18	 
3	Component 1	Component 1 - RB/T	Site 1	T1	2026-01-08	 
4	Component 5	CM4521	Site 1	CM1	2026-04-23	 

THANK YOU.
